

Kliik Denmark

mivision | 30 June 2018

Kliik Denmark's latest collection is subtle, edgy and perfect for patients with smaller eye sizes. Pictured K-621, a metal retro round with three eye rims soldered together onto a monoblock front and highlighted with contrasting double stripes.

A rich epoxy lacquer is applied over the frame for a luxurious, ultra-shine finish. Available in four colour combinations of wine cream coral, brown taupe lavender, black grey turquoise and grey white mint.
