Narrow fit with fashion details at **KLIiK DENMARK**

WHAT'S OWIN EUROPE
OCTOBER 08, 2021

SHARE

Taking its direction from the clean, modern aesthetic of Scandinavian design, KLIiK Denmark eyewear is designed for narrow fit consumers. Their three new models of the season

maintain the minimalist design that KLIiK is known for while elevating the look with bold coloration, texture and a mix of materials. With a softened rectangular silhouette, model KLIiK K-

701 features an etched two-tone pattern along the temples and brow line inspired by the contemporary wavy print trend that was popular in Autumn 2021 fashion collections.

The monoblock stainless steel construction provides added strength to the design and OBE nylon-coated screws ensure temples stay tight. The frame is offered in Black/Aqua, Cobalt/Rose, Teal/Gold, and Plum/Black. Appealing to those consumers looking to shake things up,

the mixed material of KLIiK K-703 takes its cues from the oversized shapes of the 70s, the drop bridge and square eyeshape is perfectly proportioned for the narrow-fit consumer in size 47-17. Handmade, marbled acetate in multicolored vibrant hues is offset by classic gold temples creating a look that

is clean and modern. The frame is offered in Black Smoke/Gold, Blue Smoke/Gold, Brown Teal/Gold, and Purple Smoke/Rose.
